NORD/LB CBB presents 2020 annual results

NORD/LB Luxembourg S.A. Covered Bond Bank (NORD/LB CBB) closed financial year 2020 with a loss after taxes of € 8.8 million.

"We had a very challenging financial year owing to the COVID-19 pandemic and finished with a negative result. This was mainly due to increased risk provisioning," explained Manfred Borchardt, Member of the Managing Board of NORD/LB CBB.

Because of the significant decline in **total assets** by \in 2.8 billion to \in 12.7 billion as at 31 December 2020, the bank's net interest income also fell by 7 per cent.

Compared to financial year 2019, **administrative expenses** were reduced by 4 per cent to \in 29.3 million through a Group-wide cost reduction programme.

The **profit/loss from allowances for losses** fell from \in 2.6 million to \in -4.9 million in 2020. This included an increase in risk provisioning of \in 10.0 million in sectors that were hit particularly hard by the COVID-19 pandemic.

The **other operating profit/loss** improved year on year to \in -3.2 million (previous year: \in -7.5 million) and was primarily influenced by the bank levy of \in -7.2 million (previous year: \in -6.1 million) included therein.

Thorsten Schmidt, Member of the Managing Board of NORD/LB CBB, explains: "In January 2020, we very successfully placed the world's first green bond under Luxembourg law on the market with a volume of \in 300 million. The demand was overwhelming and the order book was

oversubscribed almost four times. The interest shown by investors in our Lettre de Gage Renewable Energy demonstrates the importance of innovations in the green capital market that accord with the spirit of the times and the growing demand from investors for green products. This product innovation was made possible by a modern financial centre like Luxembourg."

Outlook

In addition to the measures to boost NORD/LB's capital, the European Commission last year also declared a comprehensive transformation of the NORD/LB Group's business model to be free of state aid. As a result of this transformation programme, which is already in the process of being implemented, a comprehensive redimensioning of NORD/LB CBB is envisaged.
